

It's in the stars!

PREDICTIONS FOR THE WEEK AHEAD FROM OUR ASTROLOGER **JANE DIMOND**

ARIES

21 MARCH - 20 APRIL

Take advantage of Valentine's Day and a full moon in your romance zone to bring the sparkle back into your love life. If you're attached, it's time to put your social life on the back burner and focus on your partner. Single Arians may find that a secret admirer reveals their true intentions. **To learn more, call 0906 166 9875.**

TAURUS

21 APRIL - 21 MAY

Someone you meet on a night out, at an art exhibition, or on a holiday may set you all aglow as Cupid fires a well-aimed arrow in your direction, aided and abetted by love planets Venus and Jupiter. And if there's a special friend you'd like to get closer to, now's the time to finally make your move! **Call 0906 166 9886 to hear more.**

GEMINI

22 MAY - 21 JUNE

They say not to mix business with pleasure, but you might decide – like Val Lambert and Eric Pollard – to mix and be damned this week, as a colleague sends a surprising romantic signal. Elsewhere on the work front, remain open to unexpected opportunities and changes that could boost your career. **Discover more by calling 0906 166 9885.**

CANCER

22 JUNE - 23 JULY

Monday's full moon puts the spotlight on your finances, but don't let money concerns distract you from Valentine's Day and a potentially enjoyable week. A positive romantic development could prove just the confidence boost you need to make important changes in your life. **Call 0906 166 9884 to hear more.**

LEO

24 JULY - 23 AUGUST

You've been putting the needs of others first,

but Monday's full moon in Leo urges you to step back into the limelight where you belong. You'll receive plenty of invites to house parties and office social events, and with Cupid around, who knows what might happen? Get out there and dazzle! **Ring 0906 166 9883 to find out more.**

VIRGO

24 AUGUST - 23 SEPTEMBER

Perhaps it's the unpredictable nature of your close relationships that's making your adrenaline soar, or maybe it's because things are hotting up romantically. As Valentine's Day arrives, there's real tension in the air, and you look set to have some very charged encounters this week. **Hear more by calling 0906 166 9876.**

ASTRO STAR

JUNE BROWN 16 FEBRUARY

Aquarians like June Brown are often drawn to quirky, unorthodox subjects such as astrology.

"I'm an Aquarian, but my Moon is in Leo, which explains my show-off tendency for acting," says June, who plays *EastEnders'* Dot Branning. "As a child, I was fascinated by palmistry, astrology and astronomy. I've always been very curious and analytical."

And Aquarians are also known for their logical, scientific minds... "I was good at biology," adds the actress. "I see it as the study of life, so it has an affinity to acting, which involves a study of lives and people's motives."

"ASTROLOGY FASCINATES ME"

LIBRA

24 SEPTEMBER - 23 OCTOBER

Love planet Venus works in your favour this week, as it contacts Jupiter, so don't let this opportunity go to waste – pull out all the stops to win that special someone's heart. With events connected to your home well starred, entertaining your loved one at your place should go down a real treat. **To find out more, call 0906 166 9882.**

SCORPIO

24 OCTOBER - 22 NOVEMBER

Whether it's a Valentine's card, a phone call, or a text message, something someone communicates to you will send your heart all aflutter – and may well have a deep emotional impact on you. Monday's full moon looks like bringing a career boost or some form of recognition your way. **Call 0906 166 9877 to hear more.**

SAGITTARIUS

23 NOVEMBER - 21 DECEMBER

Uranus' close contact to Mercury may prompt an unexpected change in behaviour in someone close to you, which could make you see your relationship in a new light. If, like Danny Daggert, uncertainty in your love life has dented your confidence lately, this could be just what the doctor ordered! **To learn more, ring 0906 166 9878.**

CAPRICORN

22 DECEMBER - 20 JANUARY

However tempting it might be to draw the curtains and shut out the chilly nights, if you get a surprise invitation or call this week, just say yes and loosen your inhibitions! Wrap up warm and make the most of the astrological weather now, because love planet Venus is smiling on you as it teams up with Jupiter! **Find out more by calling 0906 166 9879.**

AQUARIUS

21 JANUARY - 19 FEBRUARY

Although you've been happy doing your own thing recently, Monday's full moon is urging you to make emotional time and space for others, particularly a certain loved one. Don't be afraid to show your softer, more romantic side on Valentine's Day – it will have a powerful effect on someone. **Call 0906 166 9880 to find out more.**

PISCES

20 FEBRUARY - 20 MARCH

With Cupid working his magic this week, alongside Jupiter and Uranus' influence, try to keep your energy levels high, as you're likely to be getting so much attention that you'll be fighting them off with a bow and arrow! Expect the unexpected – some surprising invitations may be heading your way... **There's more to hear, so call 0906 166 9881.**
